- UI Libraries: Material UI,
- Design Tools: Figma
- Version Control: Git, Github

LANGUAGES

- English (Fluent)
- Arabic (Intermediate)
- Chinese (Basic)

REFERENCES

- References available upon request

SUMMARY

Frontend developer proficient in the JavaScript ecosystem, experienced in building applications with React and Next.js. Skilled in component-based architecture, state management, and integrating APIs. I prioritize responsive design, accessibility, and performance optimization, and I'm eager to apply these abilities in an internship role.

PROJECTS

Jeweluxe - Jewelry Landing Page

- Developed with React and Tailwind CSS using reusable, component-based architecture
- Implemented a clean UI, responsive layouts, and smooth animations for better user experience
- Optimized for mobile-first design with clear call-to-action sections.

SilexSecure - Automotive Security Landing Page

- Designed a high-contrast, user-friendly interface to highlight security features such as GPS tracking and remote engine control
- Built reusable UI components with smooth transitions and strong visual hierarchy

Hyrax - Secure Sign-Up Page

- Implemented real-time form validation for email, password strength, and required fields
- Added password visibility toggle, dynamic error handling, and user feedback
- Built with a focus on accessibility, responsiveness, and clean UI animations

EDUCATION

BSc in Computer Engineering

Olabisi Onabanjo University August 2023 - present

Strong foundation in algorithms, data structures on freecodecamp, and software development

Hands-on experience with web technologies: HTML, CSS, JavaScript, React.js, and databases.
