Summary

Experienced frontend developer proficient in HTML5, CSS3, and JavaScript, with expertise in React.js and Redux. Skilled in optimizing performance and ensuring cross-browser compatibility. Strong problem-solving abilities and effective communicator. Passionate about mentoring and collaborating to deliver high-quality software solutions.

Skills

- HTML5
- CSS3
- JavaScript
- React.js
- Bootstrap

- Responsive Design
- Cross-Browser Compatibility
- Agile Methodologies
- Problem Solving
- Word press design

Experience

WEB DEVELOPER   **12/2022 to 12/2023**
OLABISI ONABANJO UNIVERSITY

- Developed and deployed 10+ responsive web applications using HTML5, CSS3, and JavaScript, resulting in increased user engagement and decreased bounce rates.
- Led the successful migration of legacy frontend code to React.js, resulting in improved application performance and reduced loading times, as measured by Google PageSpeed Insights.
- Implemented Redux state management in 5+ projects, leading to a reduction in application bugs reported by end-users and an increase in overall user satisfaction, based on feedback surveys.
- Conducted comprehensive cross-browser and cross-device testing on 15+ web applications, ensuring compatibility with various browsers and devices, resulting in fewer post-release bug reports.
- Mentored and coached 3 junior developers, resulting in increased productivity and improved code quality, as measured by peer code reviews and performance evaluations.

Education and Training

Bachelor of engineering – computer engineering   **02/2026**
Olabisi onabanjo university
